User Description

[Auto-sent] This report was generated and uploaded automatically after an error occurred.

Latest Error

source: foundation library

setState() or markNeedsBuild() called during build.

This LicenseGateBoundary widget cannot be marked as needing to build because the framework is already in the process of building widgets. A widget can be marked as needing to be built during the build phase only if one of its ancestors is currently building. This exception is allowed because the framework builds parent widgets before children, which means a dirty descendant will always be built. Otherwise, the framework might not visit this widget during this build phase.

The widget on which setState() or markNeedsBuild() was called was:

LicenseGateBoundary

The widget which was currently being built when the offending call was made was:

LoginPage

stack:

#۰ Element.markNeedsBuild.<anonymous closure> (package:flutter/src/widgets/framework.dart:۵۳۷۳:۹)

#۱ Element.markNeedsBuild (package:flutter/src/widgets/framework.dart:۵۳۸۵:۶)

#۲ State.setState (package:flutter/src/widgets/framework.dart:۱۲۱۹:۱۵)

#۳ _LicenseGateBoundaryState._onDecisionChanged

(package:parsikhesab/core/licensing/license_gate_boundary.dart:۷۸:۵)

#۴ ChangeNotifier.notifyListeners (package:flutter/src/foundation/change_notifier.dart:۴۳۵:۲۴)

#۵ LicenseGateService._publish (package:parsikhesab/core/licensing/license_gate_service.dart:۶۶۷:۵)
