User Description

[Auto-sent] This report was generated and uploaded automatically after an error occurred.

Latest Error

source: animation library

The Scrollbar's ScrollController has no ScrollPosition attached.

A Scrollbar cannot be painted without a ScrollPosition.

The Scrollbar attempted to use the PrimaryScrollController. This ScrollController should be associated with the ScrollView that the Scrollbar is being applied to.

If a ScrollController has not been provided, the PrimaryScrollController is used by default on mobile platforms for ScrollViews with an Axis.vertical scroll direction.

To use the PrimaryScrollController explicitly, set ScrollView.primary to true on the Scrollable widget.
stack:

```
#۰ RawScrollbarState._debugCheckHasValidScrollPosition.<anonymous closure>
(package:flutter/src/widgets/scrollbar.dart:۱۵۰۰:۹)
#۱ RawScrollbarState._debugCheckHasValidScrollPosition
